Dear Tom,

Thank you for your letter. I enclose one copy of the articles. I've sent the other to Tony Wales. I mentioned the problem of proofreading to him.

We are in the final packing stage. Will be in the States next ~~Friday~~ Tuesday. I've just collected some dollars. Janet is getting wonderfully large, but is said to be putting on weight too much.

I'll send some plants to you if I come across any that I think would amuse you. In the first parcel (? this fall) they will be woodlanders. I suggest that you have a shaded ^{bed of} ~~peaty~~ woodland loam soil with a peaty mixture over it. My experience is that the plants have their roots down into quite a heavy soil but with a rich top dressing every year.

Are you still satisfied with the record player which you brought back with you? If so I'd be grateful for details - including a note on the part you had to change for change of voltage and whether you bought that in the US or here.

U.S. addresses from Tuesday.

Math Dept, Wesleyan Univ, Middletown

Conn 06457.

For first sixth months at least -

29 Long Lane, Middletown.

Best wishes to you all. Sorry
I'm in such a rush.

Cheers

Frank
